PROFESSIONAL SUMMARY

Results-driven **Software Developer** with over a year of hands-on experience in full-stack development and IT solutions. Proficient in designing and developing dynamic web applications using **JavaScript, HTML, CSS, React.js, Python, and Flask**, with a strong understanding of both **front-end and back-end development**. Skilled in **database management, version control (Git & GitHub), and API development**, ensuring seamless integration and performance optimization.

In addition to software development, highly adept in **IT proficiency**, including **word processing, spreadsheets, presentations, database management, and online collaboration tools**. Passionate about leveraging technology to drive innovation, improve efficiency, and enhance user experience. A proactive team player with excellent problem-solving skills, committed to delivering high-quality solutions in fast-paced environments.

EDUCATION

Flatiron (Moringa) School

Full Stack Web and Application Development.

Nairobi, Kenya

2023 - 2024

Kenyatta University School Of Law

Bachelor of Laws (LLB).

Nairobi, Kenya

2017 – 2021

Institute of Advanced Technology

International Computer Driving License (ICDL).

Nakuru, Kenya

2015 - 2016

Utumishi Boys Academy

Kenya Certificate of Secondary Education (KCSE).

Gilgil, Kenya

2012 - 2015

CERTIFICATIONS and LICENSURE

Full stack Software Development – **Moringa School, Kenya.**

International Computer Driving License – **Institute of Advanced Technology, Kenya.**

WORK EXPERIENCE

Nakuru Law Courts Nakuru, Kenya.

Archives Manager: 06/2023 - Present

- Analyze case Files that are candidates for the archived storage on the basis of date.
- Track and record Files movement to and fro the archived storages and update the affected databases.

Dundori Pharmaceuticals – Nakuru, Kenya.

Stock Analyst: 12/2021 - 11/2022

- Maintained the Stock Databases for incoming and outgoing products.
- Analyzed and compared branch databases to the main database.

TECHNICAL PROJECTS

Shuleni Online School - <https://github.com/NabilNagib/shuleni>

An online-school application that allows school owners to create accounts and register their schools. School owners can create classes, register students and educators and provide resources to aid in learning.

- Successfully implemented team work dynamics to develop this full stack web application from scratch.
- Utilized Figma to design the user interface.
- Utilized React JS for the frontend logic to give user a dynamic overall experience.
- Made use of the python Flask framework to handle requests and database manipulation for the backend.

Task Manager - <https://github.com/gkiarie1/Phase2-Group5-Project>

This is a web application designed to allow users to create, update, delete and mark tasks as completed.

- Utilized React JS as the framework for building the user interface.
- Implemented JavaScript language to handle the client-sided logic.
- Implemented a local JSON server as a lightweight mock rest API for managing our tasks.
- Utilized teamwork skills to successfully collaborate and complete the project in time.

The Playlist - <https://github.com/ALEXNJOROG/phase-3-project-music-manager>

This is a program crafted to allow connoisseurs of music to organize a list of their favorite songs on the basis of the artists and their particular tracks.

- Implemented python's one to many ORM to enable an artist to have multiple songs.
- Utilized the terminal to prompt the user for input and to enable navigation through the application's menu.
- Utilized the class models to generate a music database for holding the artists and songs the user inputs.
- Implemented SQLite CRUD operations logic to interact with the music database created.

SKILLS AND COMPETENCIES

Technical Skills & IT Proficiency

- ✓ **Computer Essentials** – Strong understanding of computer hardware, software, operating systems, and essential troubleshooting skills.
- ✓ **Word Processing (Microsoft Word)** – Proficient in creating, formatting, and editing professional documents, reports, and correspondence with advanced word processing tools.
- ✓ **Presentation (Microsoft PowerPoint)** – Skilled in designing engaging and impactful presentations with animations, transitions, and multimedia elements.
- ✓ **Online Essentials** – Knowledgeable in internet usage, online security, email communication, and best practices for digital safety and privacy.
- ✓ **Spreadsheets (Microsoft Excel)** – Competent in data entry, formulas, functions, chart creation, and basic data analysis for efficient record-keeping and reporting.
- ✓ **Using Databases (Microsoft Access)** – Experienced in managing, organizing, and retrieving data using database management systems for efficient information storage.
- ✓ **Online Collaboration** – Adept at using cloud-based tools like Google Drive, Microsoft OneDrive, and collaboration platforms to enhance teamwork and productivity.

Full-Stack Development Skills

- ✓ **Front-End Development (HTML, CSS, JavaScript)** – Skilled in building responsive, interactive, and user-friendly web interfaces using modern front-end technologies.
- ✓ **React.js** – Proficient in developing dynamic and scalable web applications with React, utilizing component-based architecture for seamless user experiences.
- ✓ **Back-End Development (Python & Flask)** – Experienced in building robust and efficient server-side applications using Python's Flask framework, handling API development, authentication, and database integration.
- ✓ **Database Management** – Knowledgeable in designing, managing, and optimizing databases for seamless data storage and retrieval in web applications.
- ✓ **Version Control (Git & GitHub)** – Competent in using Git for code versioning, collaboration, and deployment, ensuring smooth development workflows.
- ✓ **Full-Stack Application Development** – Capable of integrating front-end and back-end technologies to build end-to-end web applications with responsive UI and efficient back-end logic.
